Naomi, I don't believe EPA put anything into the Federal Register regarding Bad River's TAS application, at least not before it was finalized. Attached are 3 documents, 1) the administrative record index for the TAS – so anything used to help EPA make a decision on the TAS application is listed here. 2 and 3) The administrative record index indicated two FR documents used, both were DOI's and both were recognizing tribes eligible to receive services from BIA.

Not sure if that helps at all, but that's what we got. Let me know if you need anything else or have other questions.
